

A photograph of a Rapid Detect Archway Metal Detector in a security checkpoint. The detector is a long, narrow archway with a polished metal top and a dark, textured base. A red stanchion with a red velvet rope is visible in the foreground, and several other similar units are lined up in the background, creating a sense of depth. The lighting is bright, highlighting the metallic surfaces.

## RAPID DETECT ARCHWAY METAL DETECTOR

- 3 Detection Zones with 300 sensitivity levels for each zone
- LED detection lights and audible alarm when metal is detected
- Pass counter for counting throughput
- LED Bar graph for displaying amount of metal detected
- High Anti interference ability (no interference when standing next to multiple units)

The Rapid Detect Archway metal/ Weapon Detector is one of the most versatile Archway Metal Detectors on the market, it can be transported and deployed to any location and can be set up by one person in less than five minutes.

## KEY FEATURES

The unit can be dismantled and stacked to a manageable size and moved around with its inbuilt wheels and handle making this product ideal to move from one site to another, it has 3 Zone detection with LED lights on the entrance and exit and a forty hour inbuilt battery in case mains power is not available making this unit extremely easy to use and set up.

### TECHNICAL SPECIFICATION

- 3 Detection Zones with 300 sensitivity levels for each zone
- LED detection lights and audible alarm when metal is detected
- Pass counter for counting throughput
- LED Bar graph for displaying amount of metal detected
- Adjustable Volume
- High Anti interference ability (no interference when standing next to multiple units)
- 40 hour battery pack
- Password Protected settings (no unauthorised access)

### DIMENSIONS

- H222cm x W92cm x D80cm (erected)
- 70cm x 67cm x 106cm (dismantled/ stacked)
- Weight 50kg
