

**WEAPON/METAL DETECTION**

# CELLSENSE ULTRA

The Cellsense Ultra is designed for precision, flexibility, and operator simplicity. Ultra is powered by Xact ID, a software-based technology platform that combines state-of-the-art sensor technology, proprietary algorithms, and machine learning to further enhance screening effectiveness, efficiency, and actionable intelligence.

With a small footprint and space requirements, Cellsense Ultra is designed to work seamlessly into your space.

Cellsense Ultra is upgradeable, to add new features and functionalities as the need for detecting threat items changes.

Cellsense Ultra is the most advanced detection system available, designed to grow its capabilities over time.

Cellsense Ultra is revolutionising safety and security screening by protecting people, property, and sensitive information in every environment, from prisons, custody suites, and hospitals to corporate, loss prevention and government campuses.

SPECIFICATIONS	DESCRIPTION
<b>Dimensions:</b> (WxHxD)	Sensor: 3.7 in. x 72 in. x 4.7 in. Unit: 94 mm x 1835 mm x 106 mm
<b>Weight:</b>	Sensor unit: 22 lbs/10 kg Base: 28 lbs/13 kg
<b>User Interface:</b>	4.3 in./10.92 cm colour touch screen with backlight PCAP touch technology
<b>Connectivity:</b>	Ethernet Dry contact relay (24V AC/40V DC) Wi-Fi (optional) Bluetooth (optional)
<b>Audible Alert:</b>	Variable volume and tone controls
<b>Visual Alert:</b>	360° beacon alarm indicator Signal strength: 5 LED levels (front facing) Zone location: 5 LED levels (front facing)
<b>Power:</b>	Battery: Integrated Li-Ion Charger: 24V DC Run Time: 16+ hours Charge Time: 3 hours Alternative Power: Power over Ethernet (PoE)
<b>User Environment:</b>	Operating Temperature -5°F to 120°F (-20°C to +60°C) Charging Temperature 32°F to 104°F (0°C to +40°C) Relative Humidity 95% non-condensing IP Rating IP65
<b>Data Output &amp; Security:</b>	System Management and Data Collection Cybersecure
<b>Peripherals &amp; Accessories:</b>	Mounting Options Portable, freestanding base (included)
